Introducing the world's fastest, lightest ultra-compact marine VSAT- the TracPhone V3HTS from KVH

Enjoy the freedom of adventure and get more out of life on the water with TracPhone V3HTS, the 37 cm marine VSAT system that saves you from being tethered to shore. The TracPhone V3HTS delivers unmatched speed and the power to go farther and faster than ever before with global connections via the mini-VSAT Broadband™ HTS network. Now you can live life on your boat just like you do at home, from KVH, the number 1 marine VSAT communications provider.*

Work. Play. The speed and power to do it all.

mini is mighty.

- This end-to-end SATCOM solution provides:
- ▶ A rugged antenna with high-performance stabilization and tracking
 - ▶ An ideal solution for smaller boats or as a streaming fast VSAT backup for superyachts
 - ▶ Data speeds as fast as 5 Mbps/2 Mbps (down/up)
 - ▶ Maximum speeds are more than double the download speed and more than 15 times the upload speed of KVH's TracPhone V3HTS
 - ▶ Affordable metered airtime plans that provide:
 - ⌚ The fastest available network speeds at all times
 - ⌚ Monthly data packages designed to fit your needs
 - ⌚ Flexible options to switch plans or temporarily suspend service

The most advanced maritime network available

The TracPhone V3HTS delivers the same global connections enjoyed by superyachts. KVH's mini-VSAT Broadband HTS network offers unmatched speed and coverage using advanced, new next-generation high-throughput satellites (HTS) from Intelsat and SKY Perfect VSAT.

KVH's new HTS network with 65 million square kilometers (25 million square miles) added to KVH's already industry-leading Ku-band coverage

A high-speed global network that delivers speeds as fast as 5/2 Mbps (down/up) to the TracPhone V3HTS coverage area

Crystal-clear, prioritized VoIP service for exceptional call quality; system also supports Wi-Fi Calling via compatible cell phones*

Greater resilience to weather and rain fade than Ka-band services, so you are connected when you need it most

Advanced network-level firewall with automated threat management to provide additional security; plus, the antenna's ICM includes the award-winning KVH VideoTel™ "Cybersecurity at Sea" training program

Automatic, fast switching among the network's worldwide, redundant beams, ensuring seamless and reliable communications wherever you travel

*Requires Wi-Fi Calling support via your cell phone service provider

"KVH's HTS network changes the game for communications on boats. Incredibly fast, robust, and reliable, this service and the TracPhone HTS antennas allow our customers to enjoy Internet connections, streaming movies and TV, voice calls, video chats, and more."

Todd Tally, General Manager
Atlantic Marine Electronics

mini-VSAT™ Manager – creating confidence through control

The secure myKVH™ portal's mini-VSAT Manager suite of tools gives you valuable insight and control over data usage to manage your operational and personal use.

- ▶ Set up and receive usage alerts and see detailed daily and monthly usage reports to stay up to date on your monthly data consumption.
- ▶ View your vessel's track with up to one year of position data updated as frequently as every 90 seconds.

The all-new Integrated CommBox™ Modem (ICM)

The powerful ICM with its high-throughput modem, Voice over IP (VoIP) adapter, versatile network management software with least-cost routing, and built-in Wi-Fi and Ethernet is the streamlined all-in-one belowdecks unit that drives the TracPhone V3HTS.

Bring the best onboard with KVH

The results speak for themselves. In any harbor, anywhere around the world, you'll see KVH's distinctive white antennas with gray baseplates. With more than 200,000 in-motion antennas fielded worldwide, KVH has supplied more satellite communications and TV antenna systems for mobile applications than any other manufacturer. When you choose KVH, you choose the best!

Stay connected with KVH's global support

KVH OneCare™

Our global support program protects your VSAT investment and minimizes your costs. With KVH OneCare, you enjoy the marine industry's most comprehensive array of services including:

- ▶ Application Engineering, Solution Deployment, and Operating Support for the life of your product
- ▶ 2-year parts & labor warranty with options for extended warranty and annual preventative maintenance checks

Proactive Monitoring

Every TracPhone V3HTS system reports daily on 95+ key performance indicators, enabling KVH engineers and support specialists to recognize and respond to potential issues and maximize your system's uptime, speed, and overall experience so you get more out of your time on the water.
