

Iridium Extreme™ 9575

Smarter, Tougher.

IRIDIUM EXTREME - SMARTER. TOUGHER.

Iridium Extreme is built with the same reliable voice and data capability that users have come to trust from the only real mobile, real global satellite communications company in the world. But Iridium Extreme doesn't stop there.

More Features Than Any Other:

Iridium Extreme is engineered with more features than ever before and more accessories than any other satellite phone on the market, providing people with even more ways to connect.

On Track

Iridium Extreme is the first satellite phone to offer the fully integrated services of customizable GPS, Online Tracking and Emergency SOS with Notification. More than a phone, it is a real mobile, real reliable tracking device with truly global coverage.

The Only Phone With Integrated Tracking

Through Global Satellite's certified online portal ISAT Track, Iridium Extreme offers an open development platform for custom location-based solutions providing real time tracking to increase business efficiencies, improve military and emergency response, track critical assets or simply keep family and friends up-to-date.

The Only Phone With Integrated SOS

Iridium Extreme is the first phone ever built with a programmable, GPS-enabled, one-touch SOS button. A certified Satellite Emergency Notification Device (SEND), Iridium Extreme will notify help in an emergency, then notify you when help is on the way.

From One Extreme To Another

It may be the smallest satellite phone, but Iridium Extreme is big on toughness and is built to take a beating. It is ruggedly engineered to support the toughest, highest usage customers of satellite phone communications in the harshest conditions, everywhere. No other phone in the world has more guts or grit than Iridium ExtremeQ.

Iridium Access Point

Combined with your Iridium satellite phone, Iridium AxxessPoint allows you to create a Wi-Fi hotspot and connect to the Internet. Now you can keep in touch on your trusted devices from anywhere on the surface of the planet.

Iridium AxxessPoint is part of our unique vision for using the power of the world's furthest reaching network to bring extended and enhanced personal communications to people and organizations, everywhere.
